

## ASSIGNMENT 4

A.

- **TABLES**

OWNER  
BOAT  
SCHEDULED\_MAINTENANCE  
BOAT\_OWNER  
CHARTER  
CUSTOMER  
EQUIPMENT  
EQUIPMENT\_OWNER  
EQUIPMENT\_CHARTER  
LOG.

- **PRIMARY KEYS: -**

OwnerID for OWNER  
CoastGuardregNumber for BOAT  
OwnerID ad CoastGuardregNumber for BOAT\_OWNER  
MaintenanceID for SCHEDULED\_MAINTENANCE  
CharterID for CHARTER  
CustomerID for CUSTOMER  
ItemIDTabNumber for EQUIPMENT  
ItemIDTabNumber and OwnerID for EQUIPMENT\_OWNER  
CharterID and ItemIDTabNumber for EQUIPMENT\_CHARTER  
CharterID and EntryNumber for LOG.

- **FOREIGN KEYS: -**

No foreign keys in OWNER, BOAT, CUSTOMER and EQUIPMENT tables.  
CoastGuardRegNumber for SCHEDULED\_MAINTENANCE.  
OwnerID and CoastGuardRegNumber for BOAT\_OWNER.  
OwnerID and ItemIDTabNumber for EQUIPMENT\_OWNER.  
CoastGuardRegNumber and CustomerID for CHARTER.  
ItemIDTabNumber and CharterID for EQUIPMENT\_CHARTER.  
CharterID for LOG.

- **COLUMN PROPERTIES: -**

1. **OWNER** table column properties

	Column Name	Data Type	Allow Nulls
	OwnerID	int	<input type="checkbox"/>
	CompanyName	varchar(25)	<input checked="" type="checkbox"/>
	LastName	varchar(25)	<input type="checkbox"/>
	FirstName	varchar(25)	<input type="checkbox"/>
	Address	varchar(255)	<input checked="" type="checkbox"/>
	City	varchar(255)	<input checked="" type="checkbox"/>
	State	char(2)	<input checked="" type="checkbox"/>
	Zip	int	<input checked="" type="checkbox"/>
	Phone	int	<input checked="" type="checkbox"/>
	Email	varchar(100)	<input checked="" type="checkbox"/>
	BankName	char(50)	<input checked="" type="checkbox"/>
	BankAccountNumber	int	<input checked="" type="checkbox"/>

2. **BOAT** table column properties

	Column Name	Data Type	Allow Nulls
	CoastGuardRegNumber	int	<input type="checkbox"/>
	BoatName	varchar(255)	<input checked="" type="checkbox"/>
	BoatMake	varchar(255)	<input checked="" type="checkbox"/>
	BoatModel	varchar(255)	<input checked="" type="checkbox"/>
	BoatType	varchar(255)	<input checked="" type="checkbox"/>
	Length	int	<input checked="" type="checkbox"/>
	Beam	varchar(25)	<input checked="" type="checkbox"/>
	NumberOfBerths	int	<input checked="" type="checkbox"/>

3. **BOAT\_OWNER** table column properties

	Column Name	Data Type	Allow Nulls
	OwnerID	int	<input type="checkbox"/>
	CoastGuardRegNumber	int	<input type="checkbox"/>

4. **SCHEDULED\_MAINTENANCE** table column properties

	Column Name	Data Type	Allow Nulls
	MaintenancelD	int	<input type="checkbox"/>
	Maintenanceltem	varchar(255)	<input type="checkbox"/>
	RequiredDate	date	<input checked="" type="checkbox"/>
	ScheduledDate	date	<input checked="" type="checkbox"/>
	CompletedDate	date	<input checked="" type="checkbox"/>
	Cost	int	<input checked="" type="checkbox"/>
	CoastGuardRegNumber	int	<input type="checkbox"/>

5. **EQUIPMENT** table column properties

	Column Name	Data Type	Allow Nulls
	ItemIDTabNumber	int	<input type="checkbox"/>
	ItemNumber	int	<input type="checkbox"/>
	ItemSerialNumber	int	<input type="checkbox"/>
	ItemMake	varchar(25)	<input checked="" type="checkbox"/>
	ItemModel	varchar(25)	<input checked="" type="checkbox"/>
	NumberOfItems	int	<input checked="" type="checkbox"/>
	ItemCost	int	<input checked="" type="checkbox"/>
			<input type="checkbox"/>

6. **EQUIPMENT\_OWNER** table column properties

	Column Name	Data Type	Allow Nulls
	OwnerID	int	<input type="checkbox"/>
	ItemIDTabNumber	int	<input type="checkbox"/>

7. **CHARTER** table column properties

	Column Name	Data Type	Allow Nulls
	CharterID	int	<input type="checkbox"/>
	DepartureDate	date	<input checked="" type="checkbox"/>
	ReturnDate	date	<input checked="" type="checkbox"/>
	NumberInParty	int	<input checked="" type="checkbox"/>
	BoatCost	int	<input checked="" type="checkbox"/>
	EquipmentCost	int	<input checked="" type="checkbox"/>
	TotalCost	int	<input checked="" type="checkbox"/>
	CoastGuardRegNumber	int	<input type="checkbox"/>
	CustomerID	int	<input type="checkbox"/>

8. **EQUIPMENT\_CHARTER** table column properties

	Column Name	Data Type	Allow Nulls
	ItemIDTabNumber	int	<input type="checkbox"/>
	CharterID	int	<input type="checkbox"/>

9. **CUSTOMER** table column properties

	Column Name	Data Type	Allow Nulls
	CustomerID	int	<input type="checkbox"/>
	LastName	varchar(255)	<input type="checkbox"/>
	FirstName	varchar(255)	<input type="checkbox"/>
	Address	varchar(255)	<input checked="" type="checkbox"/>
	City	varchar(255)	<input checked="" type="checkbox"/>
	State	char(2)	<input checked="" type="checkbox"/>
	ZIP	int	<input checked="" type="checkbox"/>
	Phone	int	<input checked="" type="checkbox"/>
	Email	varchar(255)	<input checked="" type="checkbox"/>
	CreditCardNumber	int	<input checked="" type="checkbox"/>

#### 10. LOG table column properties

	Column Name	Data Type	Allow Nulls
	CharterID	int	<input type="checkbox"/>
	EntryNumber	int	<input type="checkbox"/>
	EntryDate	date	<input checked="" type="checkbox"/>
	EntryTime	time(7)	<input checked="" type="checkbox"/>
	EntryLocation	varchar(50)	<input checked="" type="checkbox"/>
	Weather	varchar(50)	<input checked="" type="checkbox"/>
	DepartingFrom	varchar(50)	<input checked="" type="checkbox"/>
	SailingTo	varchar(50)	<input checked="" type="checkbox"/>

#### B. WEAK ENTITIES REPRESENTATION

The weak entities in my database design are BOAT\_OWNER, EQUIPMENT\_OWNER, EQUIPMENT\_CHARTER, LOG and SCHEDULED\_MAINTENANCE.

The entities BOAT\_OWNER, EQUIPMENT\_OWNER, EQUIPMENT\_CHARTER and LOG are represented by adding the primary key of the parent table as the primary of these tables. All these entities are ID-Dependent entities in the database model. In Crow's Foot E-R diagram their relationship with their parent is represented with solid lines.

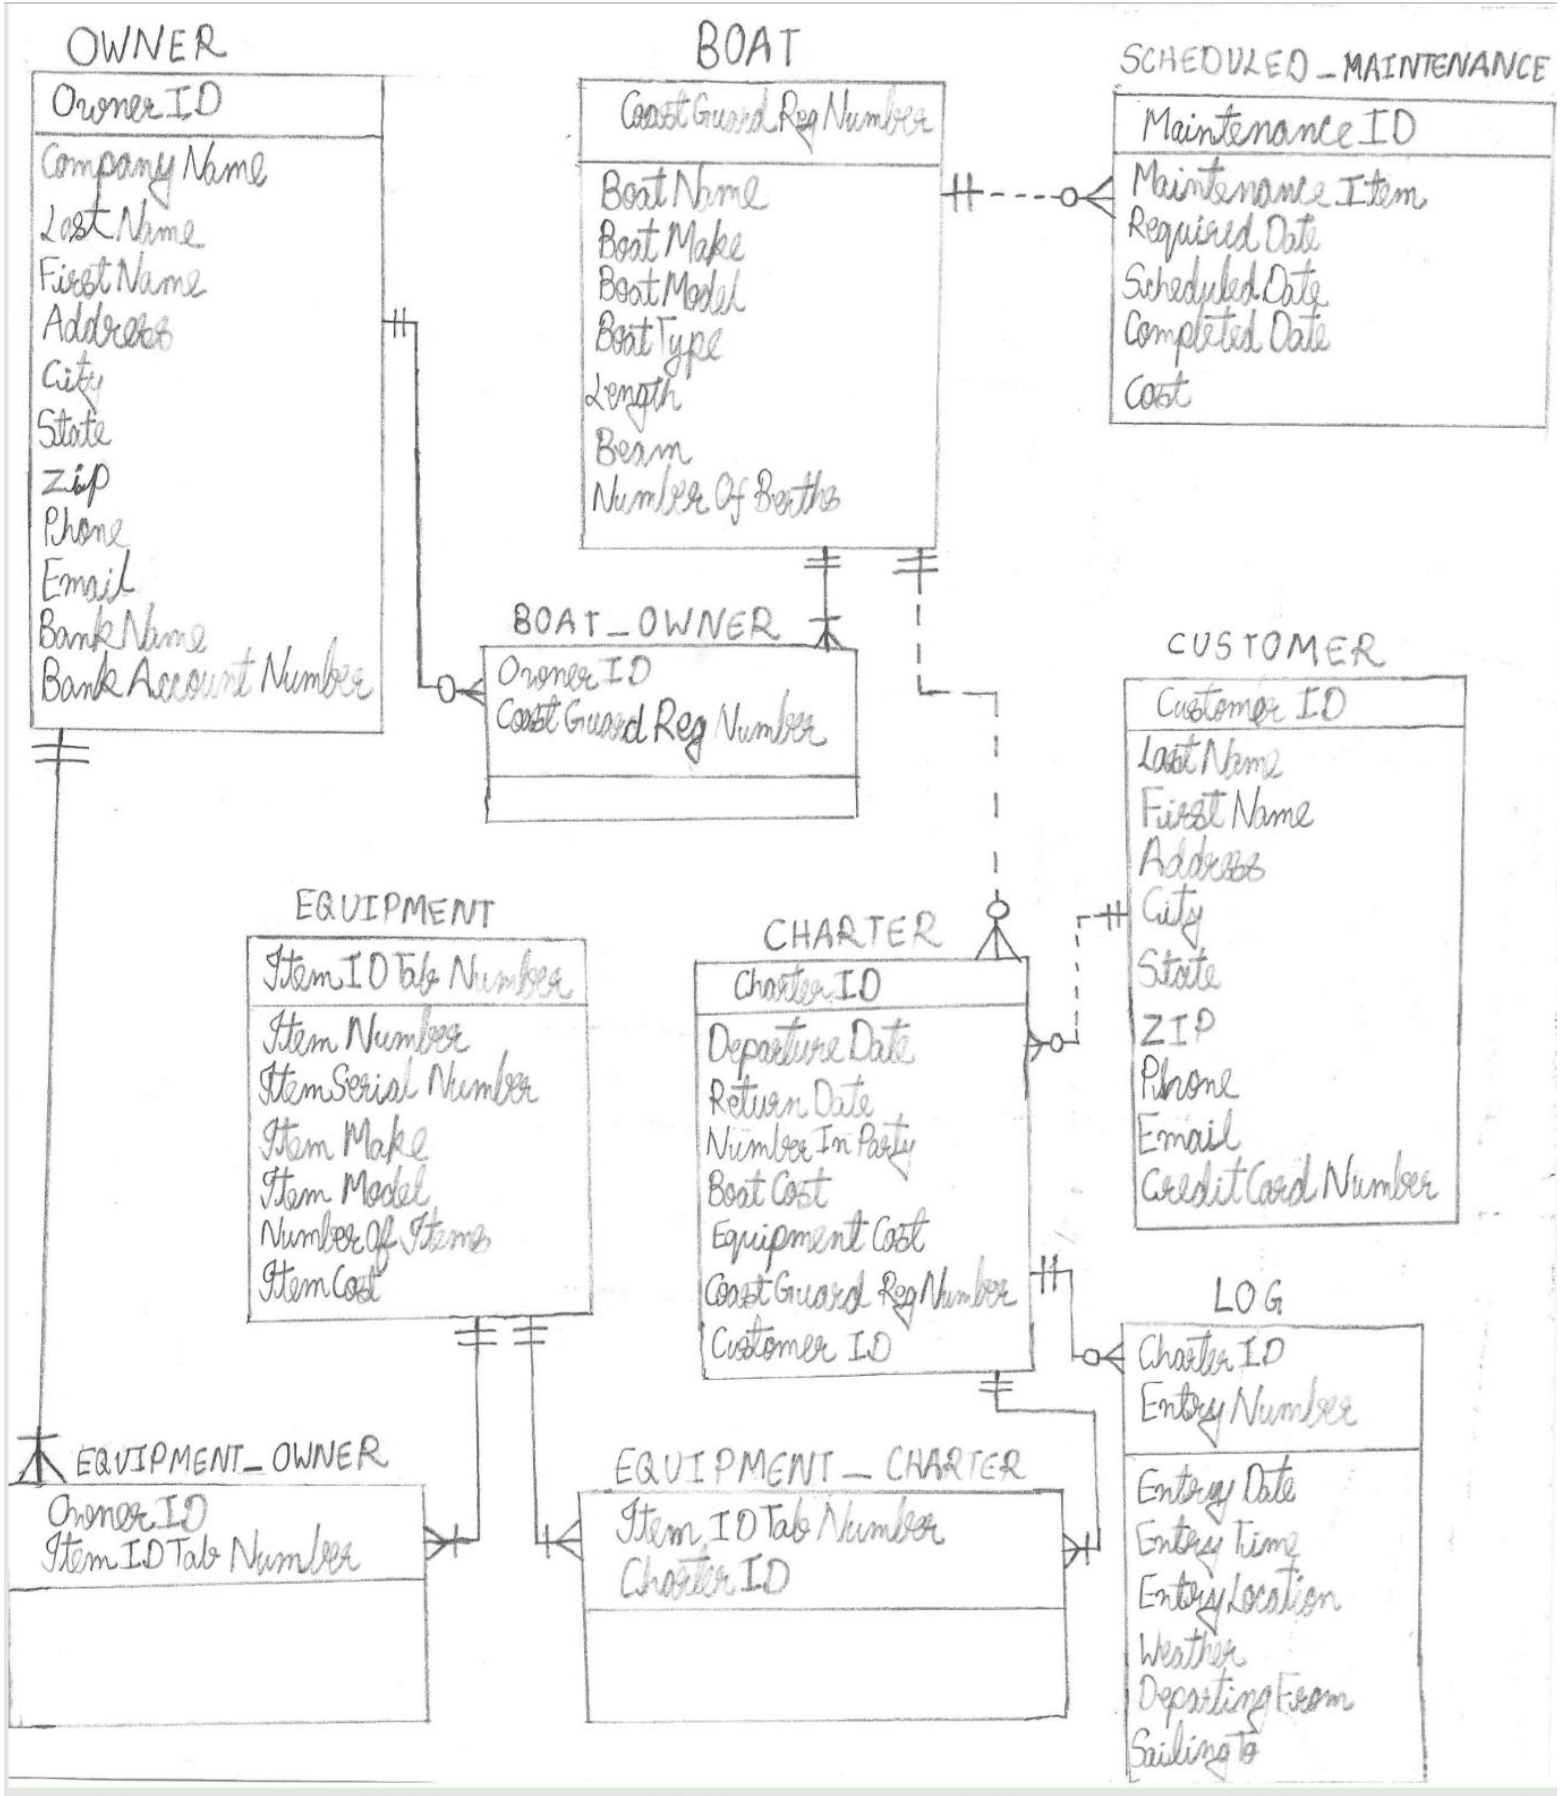

The entity SCHEDULED\_MAINTENANCE is also a weak entity and so is represented by adding the primary key of BOAT entity as foreign key of SCHEDULED\_MAINTENANCE entity. The entity SCHEDULED\_MAINTENANCE is weak because there can't be maintenance if there is no boat. This entity is NON-ID dependent because the primary key of BOAT is not the primary key of SCHEDULED\_MAINTENANCE. Further, in Crow's foot E-R diagram the relationship between BOAT and SCHEDULED\_MAINTENANCE will be represented by dotted line.

#### C. REPRESENTATION OF SUBTYPES AND SUPERTYPES ENTITIES

In my database design there are no subtypes and supertypes and so are not represented.

D.

E.

<b>RELATIONSHIP</b>		<b>REFERENTIAL INTEGRITY CONSTRAINT</b>
<b>PARENT</b>	<b>CHILD</b>	
OWNER	BOAT_OWNER	OwnerID in OWNER_BOAT table must exist in OWNER table
OWNER	EQUIPMENT_OWNER	OwnerID in EQUIPMENT_OWNER table must exist in OWNER table
BOAT	BOAT_OWNER	CoastGuardRegNumber in OWNER_BOAT table must exist in BOAT table
BOAT	SCHEDULED_MAINTENANCE	CoastGuardRegNumber in SCHEDULED_MAINTENANCE table must exist in BOAT table
BOAT	CHARTER	CoastGuardRegNumber in CHARTER table must exist in BOAT table
CUSTOMER	CHARTER	CustomerID in CHARTER table must exist in CUSTOMER table
CHARTER	LOG	CharterID in LOG table must exist in CHARTER table
EQUIPMENT	EQUIPMENT_CHARTER	ItemIDTabNumber in EQUIPMENT_CHARTER table must exist in EQUIPMENT table
CHARTER	EQUIPMENT_CHARTER	CharterID in EQUIPMENT_CHARTER table must exist in CHARTER table
EQUIPMENT	EQUIPMENT_OWNER	ItemIDTabNumber in EQUIPMENT_OWNER table must exist in EQUIPMENT table
